

Disability Rights North Carolina appreciates that volunteers Board members give of their time and talents to travel and represent DRNC at various meetings and conferences. When requested, DRNC will reimburse individuals for expenses incurred while traveling to or from a DRNC meeting or when attending a meeting or conference on behalf of DRNC or any other approved agency travel.

Training to the full board will be an on-going annual activity and designed to improve the functioning of the board as a whole. Additional periodic training to the DRNC Board of Directors will be incorporated into regular board meetings as necessary and appropriate.

Board members may also be reimbursed for the costs of attending a training that will improve their skills or expertise as it relates to their duty as a DRNC Board member. Reimbursement is contingent upon sufficient funds and prior approval from the Board Chair. In situations where the Board Chair is seeking reimbursement, the request for prior approval shall be made to the Executive Committee.

The request must:

- Be received at least 10 days in advance of the training:

- Include written justification for how the training is consistent with the mission of DRNC; and

- How the training will increase their skills and knowledge specific to their role as a DRNC Board member.
